

Making Accuracy Affordable

ICe Waterjet System

Precision Linear Bearings

Helical Rack For Smooth Motion

Digital Motion Control

- ▶ Heavy Duty Machined Weldment
- ▶ Full Bellows Protection
- ▶ Precision Digital Drive Motion
- ▶ Positioning Speeds To 2000 IPM*

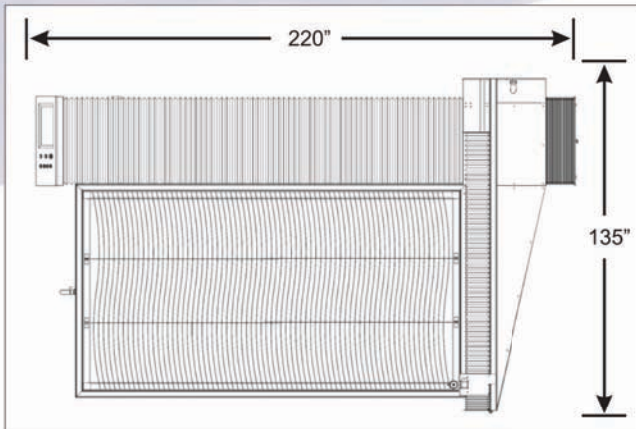

- ▶ Advanced PC Control
- ▶ 60,000 PSI Intensifier
- ▶ Choice Of Pumps To 150 HP
- ▶ Superior Accessibility To Work Surface

Standard Features

- Heavy Duty Machined Weldment
- High Rigidity F.E.A. Based Cutting Arm
- Precision Square Linear Bearings
- Digital Servo Drives
- 5,000 Count Encoders
- Full Bellows Protection
- Superior Accessibility To Work Surface

Specifications (12' x 6')

- Cutting Envelope: 12'2" x 6'2"
- Positioning Accuracy: +/- .004" Standard
- Repeatability: +/- .002" Standard
- Motion Speed: .1 to 800 IPM Standard

High Pressure Pumps

- Available From 30 HP To 150 HP
- Advanced Hydraulic Intensifier
- 60,000 PSI Continuous Rated Output
- Dual Pressure Operation
- Ceramic Plungers
- Solid State PLC Monitored Electronic Shift
- Non Threaded Easy Maintenance HP Cylinders

Controller

- Advanced PC Control
- Windows Based Graphical User Interface
- 19" LCD Display
- Standard Ethernet Communications
- On Screen Cut Path Graphics
- Full Cut Path Retrace
- Online Diagnostics And Help

Options

- High Performance Linear Motors
- Custom Cutting Envelopes
- Range Of High Pressure Pump Sizes
- Range Of Abrasive Bulk Storage Pots
- Height Following
- Job Posting & Setup Software
